## **Meyers Votes Against Right to Work Bill** *Believes It's Just a Distraction from Disastrous Budget*

Representative Beth Meyers (D-Bayfield) voted against Senate Bill 44 when it came before her this week on the State Assembly floor. This controversial bill also known as the “Right to Work” bill, was fast-tracked through the State legislature within the last two weeks and was brought before the full State Assembly. The Assembly started on Thursday at 9:00 a.m. and launched into a 24-hour debate on the right-to-work bill with it passing by a vote of 62-35 just after 9:00 a.m. Friday morning.

*“This legislation is just plain wrong for Wisconsin and only helps to continue to show the lengths at which the Majority Party will go to pander to special interests. I want to thank all of my constituents who drove hundreds of miles and waited hours to testify in Madison against this destructive legislation and everyone from Northern Wisconsin that contacted me with their concerns on this bill. Right to Work will drive down wages and hurt our economy. Many of Wisconsin’s business owners, blue-collar workers, researchers, and everyday citizens agree that this bill is unnecessary and is nothing more than a distraction from a state budget proposal that has been highly criticized by voters and the media,” stated Meyers.*
